New Children's Book Series Supports Kindergarten Readiness Through Social-Emotional Learning

Sonoma County, CA — February 2026 — Green Pudding Press announces the **Bumper & McDog Series**, a collection of four children's picture books designed to support kindergarten readiness through social-emotional learning and early executive function development.

Created for children ages 3–5, the series uses relatable stories, expressive characters, and gentle humor to help children build confidence, cooperation, emotional awareness, and problem-solving skills. The books are designed for flexible use in classrooms, libraries, and homes as read-alouds or discussion starters.

The debut titles include *Grow Brave with Practice*, *Team Up for the Science Fair*, *Fun, Friends, and the First Day of School*, and *Be Yourself! Express Yourself!*.

"Bumper & McDog helps turn everyday moments into opportunities for confidence and communication," said series creator Richard Mueller.

The books are now available on Amazon, Walmart.com, Barnes & Noble, and through local libraries. Free Peaceful Classroom Posters for teachers are available at **greenpudding.com**.
